

# Clean Go Welding Fume Collector

The CLEAN GO is the ideal solution for self-contained source capture of light duty weld fume and other airborne contaminants in the workplace. This portable, compact fume collector offers simple 120-volt plug-n-go convenience.

The Clean Go is designed using the state-of-the-art technology in source capture and is a powerful, low-maintenance solution for even tough weld fumes.

- Ultra-Low Maintenance
- Plug-n-Go Operation
- 99.9% Filter Efficiency
- 360° Dynaflex Extraction Arm for Precise Positioning
- Quiet Operation
