

## Morris Vacuum Tubing and Fittings

for Vacuum Cleaning Systems

## M

MORRIS

## Morris Vacuum Products

Morris Coupling Company can provide you with a complete line of tubular components for your vacuum cleaning system. Tubing and fittings, stocked in a variety of materials, are manufactured to exacting standards.

To order from our extensive inventory, or to obtain more information, use the handy toll-free number listed in this catalog.

## All reference dimensions are nominal. Specifications subject to change without notice. Call toll free: 1-800-635-0298• E-mail: sales@controlledairdesign.com Internet: www.controlledairdesign.com

Morris Compression Couplings provide a sure, tight coupling with equalized compression. Simply slide coupling over joint and tighten. The exclusive Morris outer-shell and bar-washer design creates an equalized pressure seal.
Morris Compression Couplings are provided with a black neoprene gasket and grounding strip. Red or white gaskets and many other sizes are available.

## Nuts and Bolts

Coupling comes ready to slip on with electroplated nuts and bolts in place - ready to be tightened with a singlesocket wrench.

## Gasket

Die-cut tooth design assures lowor high-pressure seal for both gaseous and liquid materials. Black neoprene is standard gasket, but rubber, white neoprene, high temperature and other gasket materials are available.

Precision die-cut teeth help apply equal pressure to the entire pipe circumference to attain positive seal plus extra rigidity.

## OPEN/CLOSE without tools...in seconds

Morris Quickon II Couplers can be installed or removed with a twist of the wrist. No tools or special skills needed. The positive locking system turns easily to seal or to compensate for normal O.D. tubing tolerances.
This in-line coupler is ideal for use where fast takedown and reassembly of lines are essential, reduced coupler weight is desirable, or a system is frequently modified.

Shrink sleeves are film bands that are heat shrinkable. Can be used with slip couplings (two required per slip coupling) or bell ends.

Morris Coupling Company has been serving the pneumatic bulk-conveying industry for over 60 years with a complete line of precision quality coupling and tubing products. We provide single-source capability for all your component needs backed by on-time delivery to keep your project on schedule.

For all your vacuum tubing and fitting needs:
