

4.8 to 11.5 HP
POWER

13.950 in²
FILTER

26 gal Bin
CAPACITY

- AUTOMATIC CLEANING -

SP

Each filter cartridge is cleaned at adjustable intervals by a high-pressure (6 bar) air jet, which shakes the cartridge, dislodging large amounts of material from the filter, making it completely clean in a matter of seconds.

It requires compressed air to operate.

OPTIONAL COMPRESSOR ON BOARD

POWERFUL SIDE CHANNEL BLOWER
480V/60 Hz

X3 cartridges
